

BAGGAGE INFORMATION

Pack and Weigh Your Things

- Each passenger, 2 years and older is allotted 50 pounds of total baggage. Passengers under 2 years old are allotted 10 pounds of total baggage. **This weight is comprised of anything and everything you bring besides yourself – including purses, backpacks, carry-on, etc.** (Example: A group of 10 adults would be allotted 500 pounds)
- If you plan to bring supplies, tools, etc., that will bring your total baggage weight to more than the allotted amount, please let us know when making the reservation so that we can reserve the extra weight/space on the plane. This helps us with planning and allows you to take your things with you when you fly. **If excess weight is not reserved, it may not be able to go on the flight.** The recommended contribution for excess baggage weight is \$1.85/pound.
- Make sure that everyone in your group weighs the bags and belongings they are bringing along.
- If you will not be checking in your baggage the day before your flight, please call with a scaled weight of your personal / group's baggage by 10:00 am the day before your flight. **Remember that this weight includes anything and everything you bring including purses, backpacks, carry-on, cameras, and supplies for your trip.**
- If you have a large amount of baggage, please plan to bring it the day before your flight by or before 2:00 p.m.
- Any baggage above your reserved baggage weight will be placed on standby and may have to go on a later flight as cargo.
